

HEAVY DUTY BLOWER FAN

24 inch - 110V

Description:

Industrial Heavy-Duty Blower Fans are engineered to deliver powerful airflow and pressure for demanding environments. Built with a steel casing and aluminium alloy impeller blades, these fans ensure durability and efficient performance even in harsh industrial conditions. The corrosion-resistant materials provide long-lasting operation for applications such as ventilation, cooling, and dust extraction in factories and industrial sites. These energy-efficient and reliable fans are CE, RoHS, and ISO 9001 certified, meeting the highest standards of safety and quality.

Technical Data:

Data Specification	
Size	24" (600mm)
Voltage Rating	110V
Part Number	ATK-PB24110
Power	2200W
Speed	1720r/min
Air Delivery	390m ³ /min
Wind Pressure	580Pa
Frequency	60Hz
Noise	78 dB(A)
Certified	ISO 9001 CE RoHS
Colour	Orange
Portable Option	Stand With Wheel
Packing Dimension (Ctn.)	80x80x50cm
Net Weight	37Kg
Gross Weight	41Kg

Features:

- High airflow & pressure
- Corrosion-resistant body
- Energy-efficient motor
- Low noise & vibration
- Easy to install & maintain

Applications:

- Industrial ventilation
- Factory & warehouse cooling
- Dust/fume extraction
- Machinery & equipment cooling
- Workshop air circulation

Certified:
